Nature and Objective of the Plan:

This is a single Premium whole life plan designed to provide regular stream of income for life. You will receive lifetime monthly income which consists of a guaranteed and non-guaranteed amount at the end of each Policy month starting from the 2nd Policy anniversary. This plan provides coverage against death during the policy term.

This is a Participating life insurance policy. It allows You to participate in the performance of the Participating fund in the form of bonuses that are not guaranteed.

This is a guaranteed issuance policy which means that We issue this policy without asking for Your health declaration or medical checks at the time of application.

PLAN BENEFIT:

1. Lifetime Monthly Income

You will receive lifetime monthly income which consists of a guaranteed and non-guaranteed amount at the end of each Policy month, starting from the 2nd Policy anniversary onwards, as long as Your policy is valid. The monthly income is derived as a percentage of the single Premium paid.

Payout Period	Guaranteed Monthly Income (Percentage of Single Premium p.a.)	Non-Guaranteed Monthly Income (Percentage of Single Premium p.a.)	
		At Illustrated Investment Rate of Return of 3.00% p.a.	At Illustrated Investment Rate of Return of 4.25% p.a.
3 rd Policy Year Onwards	0.50%	1.45%	2.90%

You may deposit Your monthly income with Us to earn a non-guaranteed interest. We may change the interest rate at any time by giving You 30 days' written notice. You may withdraw the deposits with Us at any time with no charges but the minimum withdrawal amount each time is the lesser of either S\$1,000 or the entire deposit amount.

Before We make any payments, any amounts owing to Us will first be deducted.

If You did not state Your choice of monthly income payout option, the default option is to deposit Your monthly income with Us to earn a non-guaranteed interest. You can write in to Etiqa to change Your option 14 days before Your monthly income payout.

2. Surrender Benefit

The policy has a guaranteed Surrender value equal to 80% of the single Premium You paid throughout the policy duration from Policy commencement date onwards.

The total surrender Benefit is the sum of:

- a) a guaranteed Surrender value equal to 80% of single Premium You paid on this policy;
- b) any performance bonus; and
- c) any monthly income deposited with Us plus its non-guaranteed interest;

less any amounts owing to Us.

3. Death Benefit

Upon death of the Life insured while the policy is in force, We will pay the following in one lump sum:

- a) 101% of the single Premium You paid on this policy plus any performance bonuses; and
- b) any monthly income deposited with Us plus its non-guaranteed interest;

less any amounts owing to Us.

When We make this payment, the policy ends.

BONUSES:

Future bonuses of this plan which have yet to be allocated to You are not guaranteed and We will decide the level of bonus to be declared each year as approved by the board of directors, taking into account the written recommendation by the appointed actuary.

The Benefits under this plan are made up of guaranteed and non-guaranteed Benefits. The guaranteed Benefits will be paid regardless of the performance of the Participating fund. Non-guaranteed Benefits are in the form of Non-Guaranteed Monthly Income and performance bonus. The Non-Guaranteed Monthly Income and performance bonus stated below are NOT guaranteed and will vary according to the future experience of the Participating fund.

4. Non-Guaranteed Monthly Income

Starting from the 2nd Policy anniversary onwards, the non-guaranteed monthly income may be payable at the end of each Policy month. The non-guaranteed monthly income is determined annually and credited to the policy on the following Policy anniversary. Once the non-guaranteed monthly income is declared, it will be paid out together with the guaranteed monthly income.

Please refer to the Policy Illustration for the non-guaranteed monthly income at Illustrated Investment Rate of Return of 3.00% p.a. and 4.25% p.a.

The two rates are used purely for illustrative purposes and do not represent upper and lower limits of the investment performance of the Participating Fund.

6. Investment of Assets

The investment objective is to maximise the long term returns of the SGD Participating fund through investments consistent with Policy owners' reasonable expectations, while meeting the internal and regulatory solvency requirements. The strategic asset allocation for the SGD Participating fund is as follows:

Asset Type	Strategic Asset Allocation	Actual Allocation as at 31 December 2024

*Other assets include alternative assets, cash and policy loan.

("Maybank Asset Management Singapore"), Our sister company, has been appointed to primarily manage the assets. In addition, BlackRock (Singapore) Ltd and PGIM Private Placement Investors, L.P. had been appointed in March 2023 and October 2024 respectively to manage a portion of the assets.

Maybank Asset Management Singapore address: 50 North Canal Road #03-01, Singapore 059304.
BlackRock (Singapore) Limited address: 20 Anson Road, #18-01 Twenty Anson, Singapore 079912.
PGIM Private Placement Investors, L.P. Address: 655 Broad Street, 17th Floor, Newark, NJ 07102.

7. Total Expense Ratio (TER)

The TER is the proportion of total expenses incurred by the Participating fund to the assets of the Participating fund. These expenses include costs such as investment, management, distribution, taxation and other expenses.

An expected level of expenses to be incurred by the Participating fund has been allowed for in the Premiums payable for Your policy and is not an additional cost to You. If the actual level of expenses vary significantly from the expected level of expenses, it may affect the non-guaranteed Benefits You may receive.

For Our Participating fund, the past TERs are shown in the table below.

	2022	2023	2024	Average of last 3 years	Average of last 5 years	Average of last 10 years
Total Expense Ratio	2.26%	1.16%	1.49%	1.61%	2.25%	3.64%

Please note that past expense ratios are not necessarily indicative of actual expenses that may be incurred in the future.

8. Investment Rate of Return

For Our SGD Participating fund, the past investment rates of return (after deducting investment expenses only) are shown in the table below.

	2022	2023	2024	Average of last 3 years	Average of last 5 years	Average of last 10 years
Investment Returns	-11.06%	5.49%	2.04%	-1.44%	-0.40%	1.92%

Please note that past performance is not necessarily indicative of future performance.

9. Type of Risk Affecting the Level of Bonuses

The level of bonuses depends on the actual performance of the Participating fund. Key factors affecting the performance of the Participating fund are:

- Investment return
- Expenses incurred or allocated to the Participating fund
- The amount of death and sickness claims paid out on policies in the Participating fund

- The numbers of surrenders of the policies in the Participating fund

We will determine the level of bonuses taking into account the current performance, the future outlook as well as the financial soundness of the Participating fund.

10. Sharing of Risks

Your Premium, along with those of other Participating policies will be combined in one pool of assets in the Participating fund. The surrender risks are pooled and shared by all policies in the Participating fund which include both single and regular Premium plans. The investment risks borne by Your plan will be shared with other Participating plans. Other risks may be shared among products that have the same features. Examples of such risks include expense risks, mortality risks and morbidity risks.

In determining the level of bonuses that can be supported, the assets available to back the plan will be derived by accumulating the Premium paid at the actual rate of investment return less the cost of insurance, expenses incurred, commission paid, taxes and other costs that may be incurred in managing the Participating fund.

11. Smoothing of Bonuses

As investment performance fluctuates over time, bonuses are smoothed to achieve stable medium to long term returns on Your policy. As a result, some of the investment returns in good years may not be distributed so as to boost returns in years where the investment return is low. However, the effect of smoothing is intended to be neutral over time.

i. Non-Guaranteed Monthly Income

Etiqa's bonus distribution policy is to keep the non-guaranteed monthly income at a level that is expected to be sustainable over the long term. Thus, while the non-guaranteed monthly income is usually reviewed annually, it is not expected to fluctuate from year to year. Nevertheless, it may be adjusted up or down under exceptional circumstances.

The non-guaranteed monthly income rates declared over the past 3 years are consistent with the non-guaranteed monthly income at Illustrated Investment Rate of Return of 4.25% p.a. as stated under section "Bonuses: Non-Guaranteed Monthly Income" in the Product Summary.

ii. Performance Bonus

The Performance Bonus rates declared over the past 3 years are consistent with the performance bonus at Illustrated Investment Rate of Return of 4.25% p.a. as stated under section "Bonuses: Performance Bonus" in the Product Summary.

Please note that past performance is not necessarily indicative of future performance.

12. Fees and Charges

This plan shares in the experience of the fund. This means that any expenses incurred by the fund can be charged to the policy according to the risk-sharing rules described earlier.

Examples of such expenses include:

- Investment fees paid to fund managers for providing management services
- Mortality (death), terminal illness, lapse and surrender claims

- Marketing and other distribution-related costs
- Administration fees incurred in underwriting of new business
- Management and overhead expenses
- Commission fees paid to Your financial adviser or intermediaries

All expenses, except for commission, are shared and charged to the assets backing the policy according to the risk-sharing rules described earlier. For commissions, the actual amount is charged to each individual policy.

Please refer to the Total Distribution Cost Table in the Policy Illustration for more information.

Please note that the charges described in this section will not be in the form of explicit fees or charges to You; it has already been allowed for in calculating Your Premium.

13. Exclusions

There are certain conditions under which no Benefits will be payable.

Death Benefit

We do not pay the death Benefit if the death is directly or indirectly, wholly or partly caused by:

- b) Pre-existing conditions within the first 12 months from the Policy issue date or latest Reinstatement date, whichever is later.

Residency

The following exclusion clause will apply to the residents of the following countries: Bahrain, Egypt, Lebanon, Saudi Arabia and Ukraine.

Terrorism (suspected or proven) shall be understood to include the consequences of hostage taking, drive-by shootings, planting of bombs, and other forms of physical violence.

When there is condition(s) specific to the Life insured which We will not cover, We will state them on Our offer of conditional acceptance, the Policy Information Page and Endorsement. When any of the exclusion happens, We will return the higher of either the total Premiums paid (less any amounts previously paid to You under this policy) without interest or the Surrender value (if any), less any amounts owing to Us.

14. Other Material Information

Update on Performance:

You can expect to receive an annual bonus update from Us on the performance of Your policy and the Participating fund by October each year. An updated Policy Illustration is available upon request.

Conflict of Interest:

Potential conflicts of interest arise in the allocation of expenses between the Participating and other insurance funds. Over-allocation of expenses to the Participating fund is detrimental to Policy Owners of Participating policies. As such, Etiqa strives to achieve a fair allocation substantiated by regular expense investigations.

Related Party Transactions:

All transactions with the related parties will be approved by relevant internal committee to ensure that transactions are done at arm's length.

Termination:

Your policy will end when one of these events happens first:

- a) death of the Life insured;
- b) full surrender of the policy;
- c) We paid out 100% of the Benefit amount for the covered events;

Please refer to the Table of Deductions in the Policy Illustration for the potential cost of surrendering the plan early.

You may return this policy for cancellation within 14 days after You receive the policy document, for any reason. We will deduct any costs incurred by the Company in assessing the risk under the policy, such as payments for medical check-up and other expenses, from the Premium You paid and refund the balance to You. If Your policy document is sent by post, We consider this policy is delivered to You 7 days after the date of posting.

Premium Financing (if applicable):

If Your policy's Premium is financed by any bank loan:

- a) You will not retain ownership rights on the policy as the policy is assigned to the bank.
- b) The interest charged on the bank loan is not correlated to the Illustrated Investment Rate of Return of Your policy and can be higher than the Illustrated Investment Rate of Return of Your policy.
- c) You will service the loan repayment comprising of loan principal and/or interest including cancellation fees and/or any charges relating to the bank loan throughout the tenure of the loan. This applies even if You decide to cancel Your policy during the free look period.
